Introduction

Port Facility Security Officer (PFSO) Course aims to provide the skills and knowledge to those who may be designated to perform the duties and responsibilities of a Port Facility Security Officer, as defined in section A-2.1.8, sections A/B-18.1 of the International Ship and Port Facility Security (ISPS) Code.

Objective of Course

This course covers the requirements defined in sections A/B-18.1 of the ISPS Code and International Maritime Organization (IMO) Model Course 3.21 (dated 6 Sep 2003). At the end of the course, participants will be able to:

- Assume the responsibilities and perform the duties of the PFSO
- Implement and ensure the maintenance of the Port Facility Security Plan
- Conduct security inspections of the ship to ensure adequate security measures
- Understand the conduct of security assessment and audits
- Conduct training, drills and exercises in accordance with the ISPS requirements.
- Enhance security awareness and vigilance

Course Coverage

The course covers the following topics:

- Maritime Security Policy, Legislation, Codes and Conventions
- Maritime Security Responsibilities
- Security Administration
- Development and Implementation of an effective Port Facility Security Plan
- Port Facility Security Equipment
- Recognition of Behaviour that threatens security
- Recognition and detection of weapons and dangerous devices
- Access and Searches
- Port Security Incident Reporting
- Conducting the security audits, port facility assessment and inspections
- Training Requirements, Emergency
- Preparedness, Drills and Exercises

Pre-Requisite

Employed or engaged as a ship's complement in any capacity on board ships which are required to comply with the ISPS code.

Certification

Participant who has successfully completed the course will be awarded a Port Facility Security Officer Course Certificate by STEI Institute.
