Introduction

Company Security Officer (CSO) Course aims to equip participants with the knowledge and requirements of the International Ship and Port Facility Security (ISPS) Code and various relevant legislations.

Objective of Course

At the end of the course, participants will be able to:

- Assume the responsibilities and perform the duties of the CSO
- Conduct ship security assessment and use findings to develop a ship security plan
- Conduct security internal audits and reviewing of security activities
- Develop and ensure maintenance of the Ship Security Manual, Security and Training Plans
- Conduct shipboard security briefings, training, drills and exercises as a competent trainer
- Enhance security awareness and vigilance

Course Coverage

The course covers the following topics:

- Introduction
- Maritime Security Policy
- Security Responsibilities
- Ship Security Assessment and On-scene Inspections
- Security Equipment
- Ship Security Plan
- Threat Identification
- Ship Security Actions
- Emergency Preparedness, Drills and Exercises
- Security Administration
- Security Training

Pre-Requisite

Employed or engaged as a ship's complement in any capacity on board ships which are required to comply with the ISPS code.

Certification

Participant who has successfully completed the course will be awarded a Company Security Officer Course Certificate by STEi Institute.
