Introduction

Ship Security Officer (SSO) Course aims to equip participants with the knowledge and requirements of the International Ship and Port Facility Security (ISPS) Code and various relevant legislations.

Objective of Course

At the end of the course, participants will be able to:

- Assume the responsibilities and perform the duties of the SSO
- Implement and ensure the maintenance of the Ship Security Plan
- Conduct security inspections of the ship to ensure adequate security measures
- Understand the conduct of security assessment and audits
- Conduct training, drills and exercises in accordance with the ISPS requirements as a competent trainer
- Enhance security awareness and vigilance

Course Coverage

The course covers the following topics:

- Introduction
- Maritime Security Policy
- Security Responsibilities
- Ship Security Assessment and On-scene Inspections
- Security Equipment
- Ship Security Plan
- Threat Identification
- Ship Security Actions
- Emergency Preparedness, Drills, and Exercises
- Security Administration
- Security Training

Pre-Requisite

Have at least 12 months of sea services experiences as a Deck Officer or Marine Engineer.

Certification

Participant who has successfully completed the course will be awarded a Ship Security Officer Course Certificate by STEi Institute.
